Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jiawei Huang on 01/20/2004.

The following changes have been made to the subject application:

In claim 1, line 5, changed "resistances" to -- resistance --.

In claim 1, line 5, changed "resistors are" to --resistor is--.

The Examiner's amendment has been made in order to comply with the 35 U.S.C 112, second paragraph and to place the application in a condition for allowance.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach a display having a plurality of pixel, each pixel has a light-emitting device and a high resistance resistor connecting the anodes of the light-emitting devices in every pair of neighboring pixels, wherein the resistance of the high resistor is greater than the internal resistances of the light-emitting devices as defined in claim 7. Therefore, claims 7-10 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no latter than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
